

### **COVID-19 webinar by PHFI for KMC Health Department Staffs**

COVID-19 pandemic has thrown unprecedented and unique challenges across the world. The virus being new nothing much is known about it in terms of its total profile. KMC medics and paramedics and other frontline workers are COVID-19 warriors and they are fighting it hard day in and day out. In order to provide quality Healthcare and ensure containment of COVID-19, Public Health Foundation of India has come up with 6 webinars from 6<sup>th</sup> April to 11<sup>th</sup> April, 5 pm to 6.15 pm free of cost as a good will gesture. 62 KMC Health participants are taking part in the webinars for capacity building and thereby better prevention, control and management of COVID-19 cases. This initiative from PHFI for our Healthcare providers is indeed much appreciated and it has come up when it is most needed.
