Municipal Commissioner's Circular No. 36 of 2022-23

It is observed for sometimes that often there has been substantial delay in putting WBMB recommendation before the MIC meeting for its acceptance. The matter was discussed in last MIC meeting and decided that WBMB recommendation must be placed before the MIC meeting within 3 (three) months from the date of WBMB resolution. If clearance of placing agenda item before MIC meeting could not be obtained within three months, the matter must be revisited/scrutinized from the beginning.

Further, it is notified to all concerned that the primary objective of KMC is to preserve/conservate the water body and onus of keeping water body in well maintained condition lies with its owners. But, since most of the water bodies are un-assessed and ownership details are unknown, owners could not be brought into the task to maintain the water bodies resulting rampant filling and subsequent environmental degradation. Hence, the Assessment Collection Department is requested to make assessment of all un-assessed water bodies with assigning separate premises no./Assessee no. and ownership details so that Environment & Heritage Department can record all relevant information into the "Inventory of Water Body". Moreover, it is often observed that Separation/amalgamation proposal has been initiated without restoring the recorded water area within the premises in question. Henceforth, no separation/amalgamation cases will be entertained unless recorded water area is maintained within the premises in question in accordance with West Bengal Inland Fisheries Act 1993.

This has the approval of Hon'ble Mayor.
