Dated: 06/07/2018

Municipal Commissioner's Circular No. 43 of 2018-19

It is often observed that cutting of existing roads becomes necessary for laying water supply pipe line or for undertaking sewerage and drainage works. Henceforth, the Water Supply Department and Drainage Department will prepare the cost of restoration of the roads in the main estimate while obtaining approval of the competent authority.

Water Supply Department and Drainage Department will inform in advance to the Roads Department about their programme of road cutting and date of completion of the work, so that restoration of roads can be taken up by the Roads Department suitably. The estimate for such road restoration is to be prepared in consultation with the Roads Department.

This circular is issued with the approval of the Hon'ble Mayor dated 04/07/2018.
