OFFICE ORDER 11 of 2017-18

Re: Distribution of guidelines among the Building-owner(s) / Constituted Attorney in different wards of KMC for prevention of Mosquito breeding at construction sites on an urgent basis.

Hon'ble Mayor vide order dated 22/02/2018, as proposed by Chief Municipal Health Officer dated 21/02/2018, has directed to distribute a guideline among the Building-owner(s) / Constituted Attorney for prevention of Mosquito breeding at construction sites in different wards of Kolkata Municipal Corporation.

Accordingly the guideline is enclosed to distribute the same among the Building-owner(s) / Constituted Attorney in different wards of KMC on an urgent basis especially at the time of giving approval to the building plan.

All concerned are also requested to issue stop work notice against such construction site where the said guide line will not be followed strictly.

Director General (Building)

Sub.: Guidelines for promoters/ developers/ contractors/agencies for prevention of mosquito breeding at construction sites in different wards of KMC

To

Mr/ Ms -----

Sir/Madam,

This is to let you know that the onus of preventing mosquito breeding at the said construction site primarily rests with you and hence you are hereby requested to undertake the following preventive measures on your own on a regular basis to keep the site free of mosquito larvae:

- Empty each and every water storage container/reservoir at a weekly interval.
- If you face any problem in emptying water containers/ reservoirs, please cause to sprinkle kerosene/ diesel/ MLO (mosquito larvicidal oil) on their water surfaces @ of 2.5-3 litres per 100 sq m surface area at weekly intervals.
- For carrying out the need-based larvicidal spray with any of the said 3 materials at your construction site, please procure 1 or 2 Knapsack Sprayers (16-litre capacity) from the open market and select 1-3 field workers from your end and accomplish the job by employing their services at a weekly interval.
- Technical knowhow for sprinkling/ spraying may be obtained from the visiting Vector Control Team of KMC; the team will keep a close watch on your construction site.
- If any sort of violation on your part with regard to implementation of the proposed anti-mosquito guidelines is found, legal steps will be resorted to by the KMC as per the existing norms.

Please cooperate and help the Health Department of KMC prevent transmission of mosquito-borne diseases in the city of Kolkata.
